

Rescue Vac Air Knife

The RescueVac Air Knife rapidly aerates and fractures the soil allowing for easy removal via the RescueVac system connected to a vacuum truck. The air knife connects to a standard construction air compressor. The different RescueVac Air Knife models allow for customization based on soil conditions that may be encountered.

3 available models to fit your specific needs!

185 CFM RescueVac Air Knife

330 CFM RescueVac Air Knife

185/330 CFM RescueVac Combo Knife

Need Air? RescueVac is proud distributor of Boss trailer mounted, vehicle mounted, and PTO driven air compressors to meet all of your air needs!
